“ Edmund and I met 40 years ago while volunteering for Milwaukee and Chicago Regions racing while working corners. Over the years we stayed friends when working for Road America, watching his motorsports photography business grow, and then, his position as hiring, training and supervising new and current corner staff. My heart goes out to Andrea, his partner and support for so many years. Love, Steve Tupper

“ Edmund was always a light of happiness at the track where I met him while working there - always a smile and a warm hello in the morning. Got the pleasure of working with him in Registration in later years and again always a beacon of happiness with smiles and a warm hello, smiles and jokes. You will be missed my friend. This candle is to remind us of your shining light of happiness Edmund. Kat

“ I have known Edmund for many years, most of those as my "supervisor" at Road America. However, during my recent personal crises, that relationship transformed to one of genuine friendship. I have been deeply honored to have known Edmund and Andrea as my most special friends. May God bless them both at this difficult time.
