“ Grandpa Pat was an extended member of the Palmer family. He was always joking around with the kids and sharing a laugh with them, and he was extremely proud of his kids & grandkids! I could listen to him talk forever about all of his ideas & inventions that he had sent to government agencies all over the world to improve our planet for future generations. And he showed me some of the responses he actually got back from some of them!! That's who he is as though, always thinking of others. What a kind, caring, creative, smart, man he was, and we were blessed to have had him in our lives! Rest in God's arms, Grandpa Pat. We'll see you again someday. Until then, fly high.
