“ Childhood memories of:

- going ice fishing with Uncle Bob and my Dad

- his passion for car racing, and

- a really bizarre Christmas at the farm memory of when I was really young but a visual memory of uncle bob getting a model vehicle engine as a gift. Looked it up on the internet and I thought maybe it's called a tri-motor but it's not. I found a picture of a "rotor engine" or Wankel Engine- pretty sure that's it. Google says they were popular in racing cars so I guess that makes sense now!
